INTRODUCTION

The Seventh International Conference on Traffic & Transportation Studies (ICTTS'2010) will be held in Kunming, a beautiful garden city in southwestern China, on August 3–5, 2010. Following the style of the past conferences, the Conference will be found to be an excellent forum for transportation scholars and professionals around the world to present, discuss and exchange views and experiences about recent developments in the area of transportation studies. It will also provide the opportunities of exploring key issues, innovative technologies, and future prospects for transportation system studies.

TOPICS

The following topics are recommended by the International Scientific Committee of ICTTS'2010. You are encouraged to propose other topics, sessions, and panel discussions related to the theme of the Conference.

- Transportation Policy, Environment and Sustainability
- Transport Planning and Operations
- Traffic Flow Models with Applications
- ITS and Innovative Technologies
- Transportation Issues in Developing Countries
- Pavement Materials and Management Systems

SELECTION OF PAPERS

The selection of final papers to be included in the Proceedings are based on the following criteria: all papers must be original contributions and not previously published, nor currently under consideration for publication elsewhere; paper should deal with transportation related topics; the innovative features of the analysis and experience will be an important criterion in judging the paper's quality, and, well organized practical information and/or statistics together with a practical policy/project application will be highly evaluated.

PROCEEDINGS

All final manuscripts received on time, accepted for presentation will be published in the Proceedings of the Conference. The Proceedings will be distributed to the participants at the conference.

LANGUAGE

Working language of the Conference is English. Papers must be written and presented in English for inclusion in the Proceedings and oral presentation.

ABOUT Kunming

Kunming city is the provincial capital of Yunnan Province, which has an area of 15.6 thousand square kilometers and a population of 3.6 million. It belongs to the subtropical plateau monsoon climatic zone. The annual average temperature is 14.7°C and the yearly precipitation is 1024 mm. Kunming City is a famous historic cultural city in China. Because it is evergreen everywhere like spring all the year round with flowers blooming everywhere, the city is known as "City of Spring" or "City of Flowers". It is indeed a well-known site for sightseeing and a summer resort. The Dian Lake and the Stone Forest are the two State Major places of historic interest and scenic beauty. You will have the opportunity to savour such traditional local specialities as the Yunnan Ham, Cured Chichen, Long Across the Bridge Rice Noodle, etc. Kunming City also has a good transport service in traffic and has been linked with more than 30 cities, domestic and abroad, by air.
