

第六届交通运输领域华人学者国际会议

中国，大连

2006年6月23-25日

The Sixth International Conference of Chinese Transportation Professionals

Dalian, China

June 23 – 25, 2006

Call for Abstracts

Since 2001, NACOTA (North America China Oversea Transportation Association) has successfully organized five international conferences in China. This year NACOTA will work with University of Dalian of Technology and Dalian Jiaotong University to co-sponsor and co-organize the Sixth International Conference of Chinese Transportation Professionals. The conference is scheduled to be held on June 23-25, 2006. This conference will offer a great opportunity for transportation professionals in both China and overseas to exchange information and ideas. This conference will address issues in the transportation and related fields. Presentations are invited on the following topics:

1. Urban Transportation
2. Traffic Operations, Management and Control; Transportation Safety; and ITS
3. Highway Design, Construction, Maintenance, and Infrastructure
4. Port Development, Freight Movement, and Logistics
5. Guideway Transportation
6. Transportation and environment, energy and urban development.

Other topics related to transportation are also welcome. Those who are interested in making a presentation at the conference should submit an abstract with about 500 ~ 1,000 words for review by March 15th, 2006. Presentation abstracts will be reviewed by the conference program committee of the conference. All submissions should be emailed to the NACOTA Conference Program Committee:
