

Announcement for Abstracts

The 4th International Conference of Chinese Transportation Professionals

Wu Han, China, June 15-19, 2004

(ICCTP-2004)

Background

In the past three years, the North America Chinese Oversea Association (NACOTA) has successfully organized three *International Conference of Chinese Transportation Professionals* in China. These conferences have attracted great attentions from transportation agencies, universities, industrial sectors, and governments at different levels in China. The NACOTA China Conference series in China has become one of the important events for international Chinese transportation professional communities and Chinese transportation communities. Our vision is to attract more overseas Chinese from different continents and countries to participate in future *International Conferences of Chinese Transportation Professionals*.

NACOTA is working with Wu Han University of Technology in China to organize the *4th International Conference of Chinese Transportation Professionals* (ICCTP-2004). The conference will discuss a wide range of issues and concerns related to transportation development in China. Transportation officials in China will also present future plans for transportation development in China. NACOTA sincerely invites Chinese transportation professionals from different countries to join the conference and make presentations at the conference to share their experiences and showcase their accomplishments.

We are now collecting abstracts for conference presentations. Please review the following conference topics and submit presentation abstracts (full paper is not required) by **March 15, 2004**.
